

**Department of Ecosystem Science and Management
Texas A&M University**

Application for 484 Internship Credit

The Department of Ecosystem Science and Management regards an internship as an important component of a student's education. Therefore, the Department has a serious responsibility to ensure that internship credit is awarded for professional-level employment that relates directly to a student's degree plan, and assists the student in procuring professional employment upon graduation. Furthermore, except in extenuating circumstances, internship credit will not be awarded to students who have not properly applied for the credit before the actual employment. Students currently on scholastic probation are not eligible for internship credit.

Name and UIN: _____ Major: _____

Number of credit hours completed thus far in your degree plan: _____

Location of your internship employment: _____
